

Adelon Zeta

Web Designer/Front End Developer

Seattle, WA 98104 | adelonzeta@gmail.com | 206-551-0739

Adelon is a detail-oriented individual with experience in designing and developing fully functional responsive websites. He started his career as a hybrid designer and developer at GoAbroad; a major player in the travel-abroad marketing industry and then, later on, worked as a freelancer, driving projects forward with various brands and agencies. Adelon received several recognitions at GoAbroad for spearheading the production of customized email newsletters and increasing the engagements of pay-per-click ads by 60%; important income generating products of the company. He also has experience building VueJS components in Laravel-based web apps and has advanced knowledge of technologies such as HTML5, CSS3, and ReactJS. His keen attention to detail, eye for design, and passion for solving difficult problems are the marks that separate him from the rest of the herd.
